

# Embed an Instant Meeting on a Webpage using the Magnifi Video Widget

1. Navigate to <https://widget.magnifi.io/> and Register. If you are already registered, sign in using your Widget Subscription credentials
2. Navigate to the **Groups>Manage Groups** screen in the left menu panel
3. Scroll down to the **Instant Meeting** group
4. Under **Actions**, click on the **Copy Group iframe Code to Clipboard** action

Group Name	Members	Group Access Token	Actions
Customer Support - Request Meeting		DamRpoh	<a href="#">Edit Group</a> <a href="#">Copy Group Embed Code To Clipboard</a> <a href="#">Copy Group iframe Code To Clipboard</a>
Instant Meeting		MBhELpQ	<a href="#">Edit Group</a> <a href="#">Copy Group Embed Code To Clipboard</a> <a href="#">Copy Group iframe Code To Clipboard</a>

5. **Paste the iframe code** into your HTML site where you would like it to appear.
6. **NOTE:** Adjust the shape and size of the iframe by amending the width and height specifications in the iframe code. Note that for the Instant Meeting configuration, the smallest functional width = '495', and the smallest functional height = '400'.

```
<iframe src='https://magnifi-plugin.s3.amazonaws.com/instantmeeting.html?uid=&hostemail=jennifer@thepublicitypod.com&fname=Jennifer&lname=Radford&wkey=jtJeYQ8TjdpLUZr5YRY5bmGD&oat=MBhELpQ' width='500' height='700' style='border: 0;'></iframe>
```

When embedded, this is how the Instant Meeting Configuration will appear on a webpage
